Domestic violence takes many forms

@NationalDVAM #ThisIsDV #DVAM2016

Physical violence is just one of many tactics used to hurt, intimidate, frighten, and ultimately control an intimate partner, but our systems are designed to respond specifically to cases involving physical assault, or to treat these cases as more legitimate or dire than others.

Recognizing domestic violence is critical if we are to take action to address and prevent it.

The NRC DV's [#ThisIsDV](#) campaign elevates the voices of survivors to help validate and name their experiences and raise awareness about the multifaceted nature of domestic violence.
